148 PERSONS PERISH IN A NEW YORK FIRE

Victims Caught Like Rats In a Trap.

SCORES LEAPED TO DEATH.

New York Experiences One of Most Disastrous Fires, So Far as Loss of Life is Concerned, Since General Slocum Disaster.

One hundred and forty-eight persons—ninety-nine of them girls from the East Side—were crushed to death on the pavement, smothered in smoke or hurled crisp in a factory fire, the worst disaster New York has known since the steamship General Slocum was burned to the water's edge, off North Brother's Island, in 1904.

One hundred and forty-one bodies were removed from the ruins, and seven of the forty injured died in hospitals. This, it is believed, completes the list of dead, most of whom are unidentified. Grief-stricken relatives besieged the morgue as the bodies were laid out.

Nearly all, if not all, of the victims were employed by the Triangle Waist Company, on the eighth, ninth and tenth floors of a ten-story loft building at No. 23 Washington Place, on the western fringe of the downtown where the famous Metropolitan Opera House, the famous Metropolitan Opera House, New York, is the combination of the Atlanta Music Festival Association is offering the cultured music-lovers of the South in four full and complete productions of "The Girl of the Golden West," by Puccini; "Kriegslieder," by Humperdinck; "Il Trovatore," by Verdi; and "La Gioconda," by Ponchielli, on April 27th, 28th and 29th.

The sale of season subscription tickets opened on the 26th of March, and the first day's receipts exceeded \$25,000, breaking all records, and the first week ran well over \$35,000. The sale of single performance tickets, for which there will be an unprecedented demand, will open on April 12th, and the indications are that the four performances, particularly the Saturday matinee and Saturday evening efforts, will mark the most brilliant musical and social occasions in the history of the South up to this time.

NEGRO IS LYNCHED.

The Victim of the Mob Had Killed a White Farmer.

An unknown negro was lynched near Rockport, Miss., by a mob composed of about fifty men, after he had shot and killed Daniel Beasley, a white farmer, living a short distance from that place. The negro made his escape after the shooting, but was captured later by a posse and was being hurried to the town jail, when his captors were overtaken by the mob, which forced them to give up the prisoner. What led up to the shooting of Beasley has not yet been learned.

"\$2,000.00"

Mr. Luther Guthrie, of Beaufort, N. C., spent money freely in employing doctors to cure his wife from continual headache. He writes:

"One bottle of Cardui did my wife more good than any other medicine she has taken for ten years past. She had suffered with headache for ten years and I had spent \$300.00 for doctors' bills for her, but nothing did her any good."

She has taken two bottles of Cardui and it has done her two thousand dollars (\$2,000) worth of good. Just as long as it is made, I shall have Cardui in my home."

For all forms of female pain, like headache, side ache, pain in limbs, dizzy feelings, dragging down sensations, etc.—Cardui has been found to be an effective remedy. Don't wait till you are "all run down." Try Cardui at once. Sold everywhere.

RUSSIA THREATENING.

Despite Denials of War, Warlike Moves Are Made.

Despite diplomatic denials of prospects of war between Russia and China, Russia is strengthening all her military posts in Manchuria. The commissary department is purchasing heavily. Reports from Vladivostok and Harbin say that passports have been withdrawn from all the army reserves to prevent their escaping service. Chinese are being driven out of Southern Russia.

The Russian press, it is said, spreads stories of Chinese military activity as a whole apparently favoring a conflict between the two countries.

It is said a general strike of the telegraphers employed by the Illinois Central railroad will be called on April 1 if the demands of the men for a 20 per cent. increase in wages is not granted, according to local representatives of the telegraphers. It was stated that a strike vote already had been taken, resulting in 95 per cent. of 1,600 telegraphers in favor of a strike if the demands are refused.

A conference is to be held in Chicago between H. B. Perham, of St. Louis, representing the telegraphers, and W. L. Park, general manager of the Illinois Central.

It is claimed by the telegraphers that the road has discharged more than 300 operators within the past few weeks.

The possessor of good health and retaining almost unimpaired faculties, Mrs. Marie Esther Sturgeon has celebrated her 104th birthday. It is said she has attended church regularly for 100 years. She resides at Muskegon, Mich.

THE CRIME MAKER.

The Citizen.

No sane citizen of Alabama will come into our state agency that promotes crime and fosters criminals, and yet some are pharisaical enough to beg the question when it comes to legalizing the liquor traffic. A visit to our penal institutions or to sit for a few days in a court room will convince an investigator and searcher after the truth that the traffic in intoxicating liquors is the primal cause of a vast majority of the crime committed in our midst.

The chaplains four penitentiaries testify to the truth of this statement. Judge on the bench reaffirm this utterance. Eighty per cent of Alabama's criminal classes getting the inspiration for their crime in alcoholic liquors. Good citizenship cannot hide behind their respectability and lodge responsibility. We are either for this crime-producing agency, or we are against it. There is no neutral ground in a great moral controversy of this character. We are either for the making of criminals or we are against the institution that makes them. Is your position clearly defined? If not, are you going to get God to help you make your right in his sight?

ELBA, ALA., APRIL 7, 1911.

Those who love music and children should not forget to see the beautiful carata given tonight at the school auditorium for the benefit of the Presbyterian church.

Mr. and Mrs. Saul Paschtein left yesterday for Elba. Thence they go to Hot Springs, Ark. They will likely not return to Troy before next fall, and then may locate elsewhere. They have been here a number of years, have prospered and made many friends.—Troy Messenger.

Walker Percy, the able representative from Jefferson, left Montgomery Monday for the east for the purpose of regaining his health. His services as a legislator have been of immeasurable benefit to the state of Alabama. He would be a good man to send to the U. S. senate from Alabama.

The Montgomery Advertiser is having much trouble lately in correcting errors of the Dothan Eagle.

Governor O'Neal appointed James W. Weatherly on the Birmingham government commission instead of Harry Jones who had been recommended by the Birmingham delegation.

Prohibitionists Fight.

The fire of the prohibitionists was directed on the sections which permits breweries and distilleries in dispensary counties. They maintained that this is a betrayal of the pledge of local option. The assertion was also made that the hotel and social club provision will permit saloons in dispensary counties. This was strenuously denied by advocates of the bill.

The fight on each side was led by the same old leaders. The same old speeches were made. The same old vote was taken. The same old result was attained. And when the result was announced the same old warning of vengeance in the days to come was sounded.

Another prohibition Richmond speaker, however, and he made a speech which was considered entirely novel to this session of the legislature. The new champion of the cause of state-wide policy was none other than W. O. Mulkey, the talented representative from Geneva, who has more than once been mentioned for governor. Mr. Mulkey did what no other prohibitionist has done. He told of the sobriety that had resulted from the prohibition system. He made a regular old camp meeting talk on the sunny smiles that had followed the introduction of the blind tiger to Alabama, and he sounded the political note of warning.—Montgomery Advertiser.

One hundred and fifty cables have been lost by striking linemen of the Chicago Telephone company since the strike started several weeks ago. Wires leading into three fire companies' quarters were severed Monday. Assistant Chief of Police Schuetter said he had put detectives on the case, but that no arrests had been made.

One hundred and twenty-five persons lost their lives in shipwrecks along the New England, Canadian and New Foundland coasts during the winter just ended, according to marine statistics compiled at Boston. One hundred vessels were wrecked, with a loss of more than \$2,000,000.

J. Lee Long May Be Retired.

The political career of J. Lee Long in many respects is remarkable. He was Mr. Comer's faithful floor leader and consistent lieutenant until the amendment question was put in motion, then their relationship became strained and resulted in open revolt on the part of J. Lee and the friends of whiskey recognizing his ability as a leader and organizer, put him at the head of their campaign, which from our view point resulted disastrously for Alabama, nevertheless was a great victory for Long, then later Mr. O'Neal took a special liking for him and put him at the head of his campaign which also resulted in a great victory for Long.

Now since O'Neal's election he endeavored to show his appreciation of Long's manufacturing him into a governor and gave him the richest state he had to offer, president of the state tax commission; Long resigned as representative of Butler county and accepted joyfully for his fertile brain took in at once the many possibilities of building up a political machine in Alabama, and reasoning that if the county tax commissioners were put out of the way that he would be elevated to a virtual zardom.

Back to the legislature he went and worked vigorously for abolishing the county tax commissioners office over the bitter protest of C'Neal, for the governor could see his own dethronement plainly printed if Long was cruel enough to pull the strings, about this time the governor's mind begins to thaw out and it is said in confidential circles that he will demand Long's resignation.

Just what course the inevitable Long will take in the matter is causing much speculation.

An Ordinance

To prohibit the sale of spirituous, vinous or malt liquors; to prohibit the keeping or storing of spirituous, vinous or malt liquors for sale; and to provide penalties for the violation of this ordinance.

Be it ordained by the Town Council of Elba, Alabama:

Section 1. That it shall be unlawful for any person, firm or corporation to sell, give away or otherwise dispose of, or to aid in the sale, giving away or other disposition of whiskeys, beers, wine, bitters or any of these liquors commonly designated as spirituous, vinous or malt liquors, within the town of Elba or its police jurisdiction. Provided that this section shall not be construed to make it unlawful to dispose of said liquors in the manner permitted by the state laws of Alabama.

Section 2. Be it further ordained by the town council of Elba, Alabama, that it shall be unlawful for any person, firm or corporation to store or keep for sale or unlawful distribution any of the liquors mentioned in section 1 of this ordinance. It shall be unlawful for any person, firm or corporation to permit the same to be kept in any store, warehouse, office or building not used exclusively as a residence under the control or in the possession of said person, firm or corporation.

Section 3. Be it further ordained that any person, convicted of the violation of this act shall be fined not less than \$5.00 nor more than \$100.00 and may be sentenced to hard labor or imprisonment in the town prison or the county jail in default of the payment of such fine.

Passed March 7th, 1911.
W. M. Bailey, Clerk.
Approved March 7th, 1911.
M. S. Carmichael, Mayor.

Edward B. Abercrombie, an author by on harness horses, died at his home at Chicago. For the last thirty years he had been the editor of publications devoted to the harness industry in Chicago and New York.

Mrs. Joseph Brown, aged 35 years, cut her throat with a razor during a fit of despondency at her home at Gadsden, Ala. She will probably die. Her husband, returning home from work found her lying on the floor in a pool of blood.

Amelio Marlo, a Mexican, stabbed Mrs. Little Ladlow, at a gospel mission house at Des Moines, Ia., then fled. The woman is in a critical condition.

Warning to Railroad Men!

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroadng. Geo. M. Bell, 639 Third St., Fort Wayne Ind., was many years conductor on the Nickle Plate. He says: "Twenty years of railroadng left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley Kidney pills to many of my railroad friends." City Drug Co.

POOR ORIGINAL

BLEED THROUGH

Pine View Pealings.

Mr. Lloyd I. Jones will be the Clipper representative in Brockton now.

He will be prepared to publish any news or notices for you and give you prices on stationery and job work.

I trust the people down there will support him and make The Clipper a Brockton paper too. Just a little get-together-spirit would be a new and interesting experience for Brockton, anyway and would help wonderfully in the already rapid upbuilding of the town.

Messrs Dan and Noah Hutchison were doing some work in the Russell cemetery here Monday.

The fence around the cemetery has been painted and the place otherwise much improved.

Uncle Tom Adams spent Monday night out at Pine View.

Why don't the farmers write to the Clipper more? They could give their experiences and exchange ideas that might be of great help.

We are very much in need of some good roads out here and unless the board issue or something gets to work on them ourselves.

Mr. Horn is moving things in a way that will leave the soil waving in the same class with the lazy bug or hook worm for he has a good stand of cotton which he is plowing.

Spring is on hand and the splash of the fisherman's rod is heard in the river.

Both mother and daughter are doing well and a hackneyed old phrase in the papers but it is a delightful new to the proud father Charles Robinson at Brockton.

Special attention is called to interview with Mr. Brunson at Brockton.

After staying out on the farm for two weeks I went down to Brockton today (Friday) thinking as I had been working some I could make "arrangements" for "a splash" and found things in the city.

It was all about the hook worm. He has got more evidence than does claim to be the best.

Found Dr. Orr very busy. He examined over two hundred cases this Friday.

The people are deeply interested in curing this terrible disease. I believe great good will be done by the hook worm campaign.

Persons still doubts the value of the treatment let him talk with Mr. L. Brunson (Moss). In speaking about his case Friday he said:

"The doctor was not sure that the hook worms as it has been twenty years since I had been much and did not show the symptoms of hook worm disease. Anyway I took the treatment and sure enough found I was fully infected."

Years I have been treated for indigestion. The doctors told me to starve it out. I was not able to eat certain foods and I took medicine but without any good effect. For three years past I had little energy for anything. I was easily tired and suffered from nervousness in the stomach.

One week I took the hook worm treatment and feel better now than I have in three years. I can eat anything I want. I believe in people who are treating themselves for indigestion simply have a good case of hook worms."

It is the experience of one man and there are others who can tell the benefits received.

In Memoriam.

To the Worshipful Master, Wardens and Brethren of Elba Lodge No. 170, F. and A. M.

We, the committee appointed to prepare memorial expressive of the sorrow felt and the loss sustained by our lodge in the death of Brother, Dr. Robert L. Blue, beg leave to report as follows:

Soon after reaching his majority, Brother Blue, made application for his initiation in Elba Lodge number 170 of Free and Accepted Masons. He was initiated on January 5, 1901. At that time the lodge was meeting monthly, and on the first Saturday of the month he was raised to the sublime degree of Master Mason, the exact date when he passed being February 2, 1901, and the day that he was raised March 9, 1901.

At no period in the history of our lodge were the requirements upon examination more strict than at this period, and Brother Blue's advancement at each successive communication of the lodge was indicative of his interest, assiduity and fidelity to the tenets of the order. He was ever a loyal and faithful Mason, imbued with respect for the ancient landmarks of the craft and exemplifying the spirit of fraternal love, which so beautifies the character and so typifies masonic worth.

Brother Blue was frail in body, and much of the time suffered from bodily illness, but his disposition was unselfish and uncompromising and, though his desire not to obtrude his sufferings upon others, many who were near to him did not know the extent of his suffering. He had to a remarkable degree gifts and talents which would have made him great in his profession if Providence had permitted an unhampered use of his powers. Struggling, as he had to, he still left behind him much achievement in skillful medical work.

The home life of Brother Blue was beautiful. To his widowed mother and other loved ones his was exemplary. But the useful and lovable ones of earth's creatures, be they young or old, must answer that last great summons, and it is not for us to attempt to explain why it is so, for we know that the Supreme Architect of the Universe "doeth all things well."

Brother Blue passed from labor to refreshment on March 14, 1911. The fraternity paid the last honors according to its worthy dead, a large concourse of sorrowing brothers taking part in this tribute of love and respect on March 15, 1911.

We, your committee, offer and move the adoption of the following resolutions:

Whereas, Brother Robert L. Blue has been called from labor to refreshment; and

Whereas, he was from early manhood till his departure from this world a true mason and a worthy member of Elba lodge No. 170, F. and A. M.;

Be it resolved:

1. That we deplore the untimely death of our beloved brother;

2. That we treasure in our hearts sweet memories of our fraternal association with him.

3. That we extend our condolences to his mother and brothers and sisters, and commend them to that All Wise Being, who alone can offer consolation and cure for grief, and who also hath balm for wounded hearts.

4. That this resolution be spread at length upon the minutes of the lodge, a copy thereof transmitted to the family of our departed brother and a copy furnished to the Elba Clipper for publication.

5. That the mourning insignia heretofore ordered at special communication be continued for the usual period.

Fraternally submitted,

J. O. English,
M. S. Carmichael,
U. J. Fuller,
Committee.

A CHAPTER OF THE SCHOONER ELBA, CASUALTIES, sailed from Havana, Cuba, for New York, March 7, 1911, believed to have encountered a storm in the Gulf and rounded Cape. No word has been heard from her by owners in New York since she left Havana.

After cutting all wire communication with outside towns four masked men dynamited the safe of the bank of Lancaster, South Carolina, Tenn., and escaped with \$3,000. In their flight they fought a running pistol battle with the cashier, Simpson, but nobody was hit.

Word has reached Prince Frederick, Md., of the drowning of four fishermen in Chesapeake Bay, off Plum Point, by the overturning of a launch. The four men and two others put out in the face of a gale to set the nets. The storm increased and two of the men, becoming fearful of the rough condition of the bay, returned to the shore and thereby saved their lives.

A rescue has captured left Miller, who shot and killed the thirteen-year-old daughter of Dan Hawkins, near Knoxville, Ky. It is reported.

Colonel Thomas Kishaw Irwin, president of the Mobile, Ala., cotton exchange, and the oldest charter member of that organization, died here this morning at the age of 76 years, being a native of that city.

On Rock Creek, Union county, Tenn., David Edwards, a mountain ear, shot and killed Jacob Miller, 38, who had escaped into the North Carolina mountains. The shooting was due to an old grudge.

A passenger by the name of R. C. Turner committed suicide on south-bound "Dixie Flyer" as the train left Waycross, Ga., over the Coast Line.

The head of a 12-inch steam pipe at a power house at Manchester, N. H., blew out, killing one man instantly and severely injuring eight other persons.

South Alabama Can Elect a Governor.

The Henry County Standard, in speaking of Hon. W. O. Mulkey for governor, says the "idea of a governor coming from the Wire Grass section is preposterous, unless we can get rid of Birmingham and north Alabama." The Standard forgets the fact that the Wire Grass section is becoming one of the strongest voting sections of the state. The population of the south Alabama counties is a white population, and the voting population is much greater than in many north Alabama counties.

The Standard also overlooks the fact that in recent years and before the disfranchisement of the black belt negroes, a governor was elected from Henry county, being the late Governor Wm. C. Oates. Barbour county has furnished several governors, one being Gov. Wm. D. Jelks, a Coffee county boy.

The Wiregrass section has many good men for governor, and there is no good reason why the next governor of Alabama should not be elected from this section.

In commenting on the fitness of Hon. W. O. Mulkey for governor, his home paper, the Geneva County Reeper has the following to say:

"In Hon. W. O. Mulkey the wiregrass puts forth one who in depth of intellect, breadth of vision, stability of character and uprightness of purpose stands second to no man in the state, and one who, should he be honored with the chief office in the gift of the electorate of Alabama, could not be dictated to by self-seekers or deflected from the path of duty by fawning sycophants."

Thirty Days in Jail and \$300.00 Fine.

Hon. C. W. Simmons, the distinguished mayor of Enterprise, is determined to break up the blind rig business in his town. Last week he convicted one man for two offenses of selling liquor and imposed in each case a fine of \$300.00 and thirty days in jail.

A few more such fines and sentences will stop the business of disregarding the laws, and will demonstrate the fact that our prohibition laws can be enforced. We need more such mayors as Mayor Simmons, and he would be the right sort of man to elevate to higher judicial honors.

A Reliable Medicine—NOT A MORCLO.

Mrs. F. Marti, St. Joe, Mich., says: "Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Foley's Honey and Tar Compound in which I have great faith. It cured the cough as well as the choking and gagging spells, and he got well in a short time. Foley's Honey and Tar Compound has many times saved us much trouble and we are never without it in the house."

Enlargement of Capitol Almost Certain.

The Smith measure to enlarge the state capitol will probably be passed before the legislature adjourns. This is one of the measures recommended by Gov. O'Neal last week.

The appropriation for this purpose will be \$100,000.00. We publish the following from yesterday's Advertiser:

"The closing days of the legislature find the subject of capitol extension and enlargement much under discussion. There are many reasons for this. Several new offices have been created. The duties of several of the departments have been enlarged. All of the state offices, departments, commissions, bureaus and boards have been rapidly developing. All of these conditions loudly call for relief from the crowded condition of the state capitol, or it might be more proper to say, for the opportunity for the performance of the duties assigned."

The north wing bill, carrying an appropriation of \$100,000, passed the House of representatives on Wednesday afternoon last, and is now on the calendar of the senate with a favorable report. It has ample time for passage, and there is where it leaked out, of the senate was so vitally interested in electing Lorimer, what was the cause?

No man or set of men are going to give \$100,000 to elect a man unless they know how that man stands in regard to measures which will effect them Lorimer must be exceedingly kind to the interests, or he would not have received such a campaign fund from that source.

It might be a good thing for congress to investigate why the "interests" were so much interested.—Montgomery Journal.

A Safe Medicine For Children.

Foley's Honey and Tar Compound is a safe and effective medicine for children as it does not contain opiates or harmful drugs. The genuine Foley's Honey and Tar Compound is in a yellow package.

May be you have heard the question: "How do you want your eggs?" Under the Parks-Smith regime, it is: "How do you want your liquor?"

Foley kidney Pills contain concentrated form ingredients of established therapeutic value for the relief and cure of all kidney and bladder ailments. Foley kidney pills are antiseptic, tonic and restorative. Refuse substitutes. City Drug Co.

O'Neal Wants Longer or More Frequent Sessions.

Governor O'Neal last Saturday stated: "Quadrennial sessions of the legislature are a failure. Under the quadrennia system the legislature must necessarily work in haste and leave much unfinished. The legislature needs about thirty more working days to complete its task. There are still many very important matters to be disposed of."

The above are given as the words of the governor. They indicate the call of an extra session.

We do not see, however, any real occasion now for such complaint on the part of the chief executive nor do we know what are the "many very important matters" yet to be disposed of. The Parks local option law, the Smith regulation law, the drastic revenue law, and numerous appropriation measures have already been approved by the governor. It would be unwise to pass any more appropriation measures, for a depleted treasury would be the inevitable result, and will likely be as it is.

There is no use of creating more offices now for there is now room enough at the capitol for the present increased number.

A longer term of the present legislature is certainly not needed for the purpose of raising more salaries, for we think there is nothing further along this line for the legislature to do.

There may be some of the governor's friends, in line with his policies, who have not yet received appointments, but under the "excise commission in the South" liquor bill, the governor will have the appointment of numerous season and dispensary commissioners.

But our inquiry is partly answered by the governor himself in his recommendation last week of the house and senate and which we publish in full over his own signature in another column in this issue.

He especially calls the attention of the legislature to three bills: H. B. 470, S. B. 348 and H. B. 587. One of these bills provides for building a new wing to the capitol, and another for leasing rooms for state offices at other places until the addition to the capitol can be made.

The other bill provides for a new clerk and stenographer for the governor at a salary of \$1,500 a year.

He also recommends that he be authorized to employ lawyers "to protect the interest" of the state, and to help enforce the laws.

So, we conclude, the legislature, according to the governor, needs more time to better equip and qualify Mr. O'Neal to be governor of Alabama in a manner and style more becoming to our great state.

Free Treatment For Hookworms.

The Clipper received from Dr. Orr, the following letter, and it published for the information of those interested:

Dothan, Ala., April 10, 1910.

Dear Sir,

Will you favor me by reporting in the issues of this week the fact that clinics for the free treatment of Hookworm Disease at Elba and New Brockton will be open for the last time on April 13 and 14 respectively, and that owing to the large number of cases still coming for treatment that the clinic at Enterprise will remain open every Saturday for a few weeks longer. Thanking you, I am, Yours faithfully,

J. Fraser Orr.

Four Negroes Are Lynched

Three Are Charged With Murder, and One Assault.

Ellaville, Ga., April 8.—Dawson Jordan, Charlie Pickett and Murray Burton, negroes, were lynched here early this morning. They had been accused of the murder of Newton Eason, a white man.

About 12:30 a. m. Jailer Cliff Baugh was awakened by several men, who told him they had a prisoner to put into the jail. He admitted them and was immediately overpowered and forced to unlock the cells in which the negroes were held.

They were taken to the outskirts of the town and preparations for their hanging were quickly made.

None of the negroes had been indicted for the Eason murder, but they were being held on a coroner's order. Eason was killed on the night of January 2.

Lawrenceville, Ga., April 8.—Shortly after midnight a mob of 200 masked men stormed the jail here and after attacking the sheriff and taking his keys from him secured the negro Charles Hale, arrested earlier in the night for assaulting Mrs. C. C. Williams.

They took him to a corner in the business part of the town and after strapping him up on a tree, riddled the body with bullets.

The assault on Mrs. Williams is said to have been unusually brutal. Her husband, a prominent young farmer, was away from home when the negro slipped into the house last afternoon and before Mrs. Williams could offer any resistance, he seized her and threw her on the floor. In the scuffle almost all the woman's clothing was torn from her body. After accomplishing his purpose the negro hid in the house and again terrorized the woman when she regained consciousness.

Brockton Notes.

The news of New Brockton is coming up short at the time of going to press, owing probably to the fact that Brockton is on the quiet list now.

Miss Kate Brock of this city who has been visiting relatives and friends at Florida and Foley is back again.

Mr. J. R. Harper and wife of Geneva, were in the city last Sunday.

The oyster supper given at the school building last Friday night under the auspices of the Ladies Aid Society was quite a success.

The Sacred Harp singers of this community gave us a rare treat in the way of of Sacred Harp singing last Sunday afternoon. The following program was rendered: First lesson, by W. H. Helms, V. V. Wright and J. W. Simmons.

Second lesson by G. W. Stricklin, J. E. Helms and H. C. Byrd.

Third lesson by A. Batchelor and closed by chairman, M. W. Helms.

Mr. A. J. Rivenbark of Iron City, Ga., is visiting in the city this week.

Mr. R. A. King and wife, of Pick, Alabama, were in the city Sunday. We hear that Mr. King intends moving back to Brockton.

We are sorry to learn that Mrs. J. E. Marley, of this city, is seriously ill. We hope for her a speedy recovery. L. G. J.
